Further details will be available soon.

FURTHER INFORMATION:

Fawley Museum is a private museum established in the 1960s by the late Sir William McAlpine at his estate near Henley-on-Thames. It hosts a fine collection of memorabilia and models relating to railways and other forms of transport together with a working standard gauge railway operating on the steepest gradient in the country.

This event is strictly by invitation only, and The Surrey Classic Vehicle Club has managed to secure a limited number of spaces for 2026. This is a fantastic day out with working steam engines and a museum full of memorabilia.

Details about the Fawley Hill Estate can be found at www.fawleyhill.co.uk
